

Making An Entrance

Since 1945

Stephenson

MILLWORK COMPANY, INC.

Blending old world craftsmanship with new world technology

Since 1945...

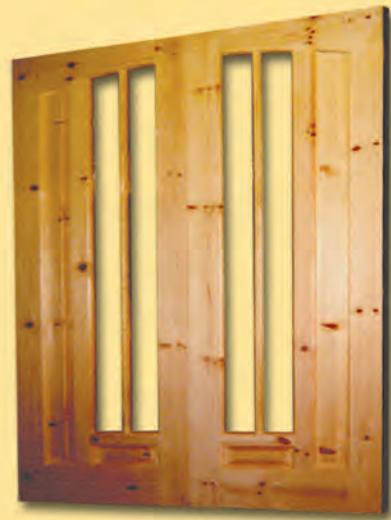

Stephenson Millwork Company has manufactured custom architectural millwork with an unwavering commitment to the highest quality craftsmanship and materials. As Russell Stephenson, the company's founder, often said his father taught him, "if you provide quality, quantity will follow." That commitment to quality continues to guide our residential door design and production process today.

When you approach a home, business or room, the first thing you notice is the entranceway. Is it inviting? Is it pleasing to the eye and does it compliment the rest of the building? Is it well-built? The answers to these questions can leave a lasting impression. We take great pride in building doors that leave the right impression.

Whether you need a standard interior paint-grade door or a custom radius entranceway, our design professionals are ready to help you through the process. We understand that a door is part function and part aesthetics. The proper combination of these architectural components is critical to any design. Our 60+ years of experience will ensure your satisfaction.

Use this catalog as a springboard for ideas, but remember our capabilities are only as limited as your imagination. We can incorporate any wood species, panel or glass design, fire rating, applied mouldings or stain to deliver the right doors to your home or office. We can even machine your doors *and frames* for virtually any hardware requirements you may have.

We take great pride in having delivered Stephenson doors as far away as Saudi Arabia, Grand Cayman Islands and 5th Avenue. But whether the project is big or small, our commitment to integrity, innovation, quality and customer satisfaction remains as strong today as it was in 1945. Our doors are always open!

Thank you for considering Stephenson Millwork for your door needs.

From churches and healthcare to education, government, country clubs, corporate offices and private residences

Whether it's aesthetics, economics or bi-partisan approval, we understand all the disciplines of getting the job done. Give us a call on your next project. We'll make you look good!

From Wilson to Tokyo...Worldwide Renown

Since its beginning in 1945 in a quarter-acre cow pasture on the outskirts of Wilson, NC, Stephenson Millwork has steadily grown into one of the largest millwork companies on the east coast. Today, 100,000 square feet of facilities house state-of-the-art computer controlled equipment and 115 dedicated employees. At the company's 50th anniversary in 1995, then Governor, Jim Hunt shared a story about an earlier mission trip to Japan. "I was out with people who had appreciation for wood products, buildings and things of that sort, and right there in the new development of the waterfront in Tokyo, Japan, guess whose name came up as doing some of the best millwork in the world. Stephenson Millwork. That's a fact."

Every order comes with experience.

The ability to preserve heritage and create from visions, comes with experience. With talented professionals throughout every department, we can help you provide your customers with handcrafted, meticulously detailed, and architecturally correct, quality door solutions. Give us a try. We'll stake our reputation on your satisfaction.

Fax: 252.293.5024 • Email: customdoors@smcinc.com • Web: www.stephensonmillwork.com

OUR PRODUCT LINE includes moulding, cabinetry, casework, counters, paneling, windows, stile and rail doors, storm doors, flush doors, entrance frames, and shutters.

CUSTOM DOORS

Our doors are handcrafted with traditional mortise and tenon construction and with meticulous attention to detail. Our custom stile and rail wood doors provide uncompromising quality, value and choice.

STORM DOORS

For added safety and security, our custom crafted wooden storm doors can be historically styled or manufactured as traditional or arch-top doors. Standard and custom sizes available.

SHUTTERS

Handcrafted wooden Raised-Panel and Fixed Louver Exterior Shutters are available in custom sizes and designed for use in period and traditional construction.

CUSTOM MILLWORK

Custom designed and crafted Arched, Raised-Panel, Pass-Through and Cased Openings.

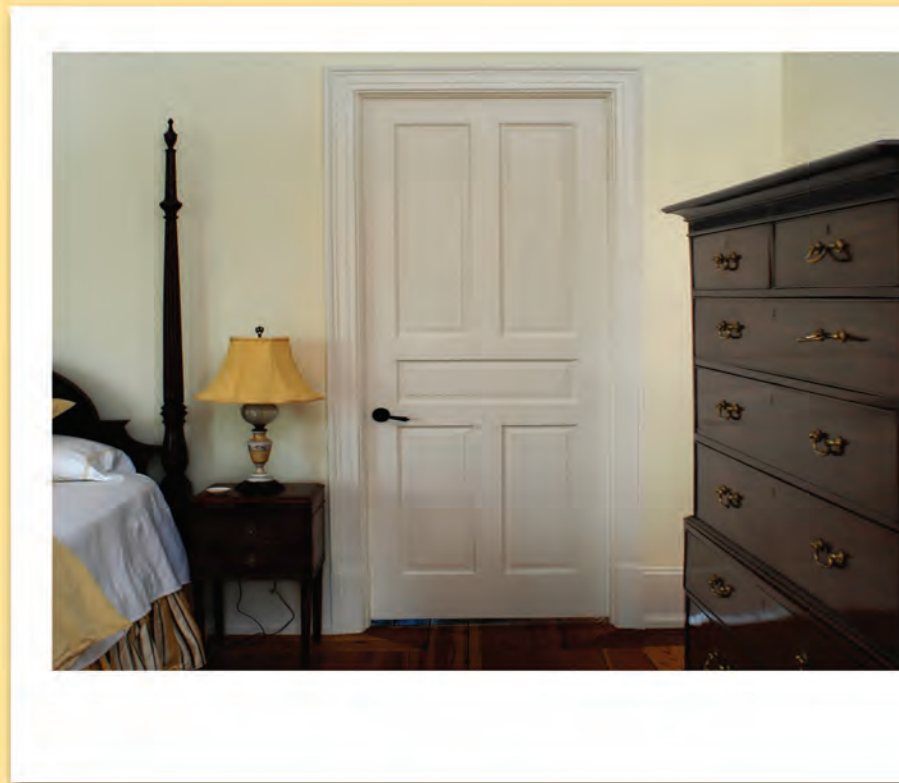

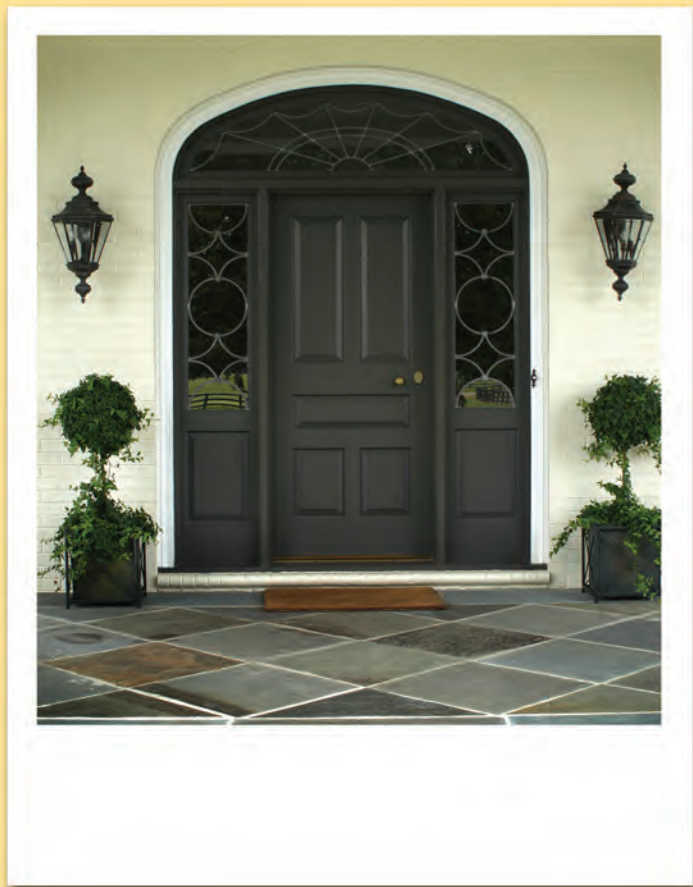

WINDOWS

True Divided Lite wood and clad windows are available in single glaze and insulated units (double hung or casement) for restoration, renovation or new construction.

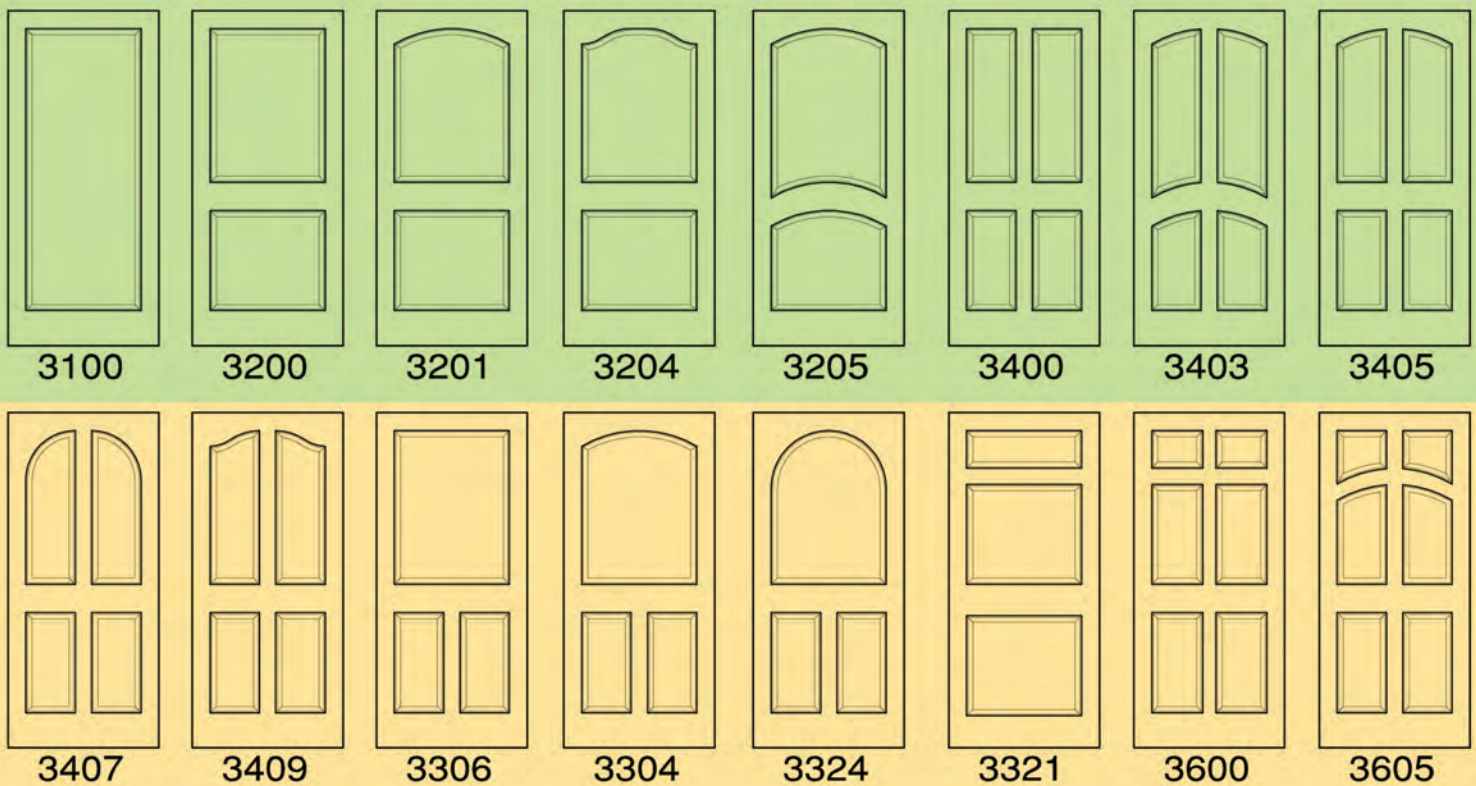

MOULDINGS

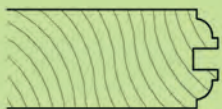

Only the highest grade lumber is used to produce our stock and custom moldings in any specie. Detailed moulding catalog available upon request.
